William Kategianes Jr

Software Engineer | Collaboration | Technology

Long Beach, CA | 562-380-5160 | wkategianes@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

Software engineer with hands-on experience designing and building web applications. Proven track record collaborating with cross-functional teams to deliver high-quality products and enhance customer satisfaction. Passionate about crafting innovative and efficient solutions that optimize user experiences.

Skills

HTML5, CSS3, ReactJS, Javascript, Python, Node.js, Express, MongoDB, Mongoose, SQL, Django, Git OAuth2.0, CRUD, RESTful Routing, API, AWS, Slack, Zoom, Heroku, and Trello.

Experience

General Assembly- Software Developer Apprentice

- Foundation for competency in Full Stack development through 480 hour immersive training with several projects, languages, and repetition in a remote setting.
- **[PokeGuess :](#)** MERN stack application designed to generate random cards by consuming an API that will then ask the user for input when clicked. It keeps track of the user's input.
  - o **Languages:** ReactJS/Javascript/MongoDB/Mongoose/Express/HTML/CSS
- **[Mamma Mia! Match 2!](#)** A match 2 minigame based on the card game from Super Mario Bros 3. Featuring win logic, matching logic, sound effects, timers, and styling.
  - o **Languages:** HTML/CSS/Javascript
- **[NetMart](#):** A full stack CRUD web application deployed on Heroku that consumes an API for product and stock data. The app utilizes django authentication for a user centric interaction with the database and other users/posts.
  - o **Languages:** Javascript/Python/PostgreSQL/API/CRUD/Heroku

Software Engineering Intern – Telesmatic Systems LLC

- Collaborated with a team of engineers to efficiently resolve customer tickets, ensuring high-quality customer satisfaction and timely issue resolution.
- Identified and resolved bugs documented by the Quality Assurance team, thus improving the quality of the product and the user experience.
